Hi Beth,

Thank you for putting this on the calendar. I had a couple of ideas for the format of the slides, but I'm not sure which would be best. I have attached a PowerPoint with my current thoughts. The first 4 slides are more in depth taken from the previous briefing and pared down a little. The last few slides are a different idea where we pare it down more and focus on the two chemicals together. Let me know what you think.

Also, do you know if Kerry has had any input into this issue – with his inerts?

Thanks.
Debra
